Product Overview | Hardware Options

Handles / Knobs / Pulls / Towel Rails

Choosing the right handles and locks can make all the difference – not only for the look of your shower or residential/commercial door, but also in terms of its functionality and security. There are a number of other colours and finishes available upon request. Handles are typically constructed in 316 or 304 Stainless Steel or Brass. Coloured channel and hinges are available to match handle selection (See section 1 catalogue).
